

ATCHAYAM G.

Principal Consultant · Technical Lead Architect · AI-Native Mobile & Web Engineer

Nagal Nagar, Dindigul - 624003 · +91 90947 13923 · atchayamganesh@gmail.com · linkedin.com/in/atchayam-ganesh · atchayamg.github.io/portfolio

PROFESSIONAL SUMMARY

Results-driven Principal Consultant and Technical Lead Architect with 13+ years of expertise in cross-platform Web and Hybrid Mobile application development. Proven track record architecting and delivering production-grade mobile banking apps, payment platforms, and enterprise applications for Karur Vysya Bank, Cosmos Co-operative Bank, Tamil Nadu Mercantile Bank, Equitas Bank, and Kotak Mahindra Bank. Deep expertise across Angular, TypeScript, Ionic, Capacitor, Flutter, and FlutterFlow — with hands-on experience in solution design, technical feasibility analysis, PR reviews, code governance, and Agile delivery. Published 6+ live apps on Google Play Store and Apple App Store. Currently modernising mobile architecture with Flutter/FlutterFlow and actively integrating AI-assisted engineering workflows, automation tooling, and agentic AI patterns to build faster and smarter. Certified in Generative AI, Agentic AI Engineering, and AI Workflow Automation.

CORE COMPETENCIES

Mobile & Web Architecture	Angular / TypeScript / RxJS	Ionic (v1–6) · Cordova · Capacitor
Flutter & FlutterFlow (Dart)	Multi-Agent AI Orchestration	AI-Assisted Development Workflows
n8n & AI Workflow Automation	Prompt Engineering & Vibe Coding	UPI / Payment Gateway / FASTag
REST API & Core Banking Integration	Offline-First Architecture	PR Reviews & Code Governance
Agile · Sprint Planning · CI/CD	Team Leadership & Mentoring	Python (FastAPI) & REST Backends

TECHNICAL SKILLS

AI & Automation n8n, AI Workflow Automation, Multi-Agent Orchestration, Automation Pipeline Design, Vibe Coding, AI Content Automation

AI Tools & Agents Claude, Claude Code, ChatGPT, Cursor, OpenAI APIs (GPT-4/GPT-5), Codex CLI, Google Gemini, Google Antigravity, Hermes Agent (Nous Research), CrewAI, LangChain, MCPs, ElevenLabs, Higgsfield AI, ComfyUI

AI Practices Prompt Engineering, AI-Assisted Coding, AI-Native Development, Agentic AI Patterns, Human-in-the-Loop Governance, Rapid Prototyping, AI Product Building

Mobile Ionic (v1, 4, 5, 6), Cordova, Capacitor, Flutter (Dart), FlutterFlow

Web / Frontend Angular (AngularJS, v8, 10, 12, 14), TypeScript, JavaScript, HTML5, CSS3, RxJS, jQuery, Bootstrap

Backend / APIs Python (FastAPI), REST API design, WebSockets, SQLite/PostgreSQL, Docker, GitHub Actions CI/CD

Banking & Payments UPI / NPCI Integration, Payment Gateway, FASTag/ETC, Micro-finance APIs, Core Banking REST APIs

Architecture Solution design, technical feasibility analysis, cross-platform strategy, offline-first (SQLite/SQLCipher)

Security Certificate pinning, Secure Storage (Keychain/Keystore), Token-based auth, NPCI compliance

Dev Practices PR reviews, coding standards, CI/CD, Git, Agile, Scrum, Sprint Planning, Story Estimation

IDEs & Tools VS Code, Cursor, Google Antigravity IDE, Windsurf, Claude Code CLI, Android Studio (v1.x–4.x), Xcode (v5.x–14.x), Play Store & App Store publishing

PROFESSIONAL EXPERIENCE

Principal Consultant — Technical Lead Architect | Hyperblitz Technologies Pvt. Ltd.

May 2025 – May 2026 · Remote

- Owning solution architecture and engineering delivery of Quikzy & Quikzy Flyer — two-sided logistics platform built with FlutterFlow.
- Leading Ionic-to-Flutter/FlutterFlow migration strategy; conducting PR reviews, enforcing coding standards, and driving technical governance.

- ▶ Integrating AI-assisted coding (Claude Code, Cursor), prompt engineering, and automation workflows to accelerate delivery cycles.
- ▶ Proactively identifying technical risks, dependency blockers, and communicating architecture decisions to leadership.

Principal Consultant – Ionic / Cordova / Capacitor | Ingram Micro

Jul 2024 – Dec 2024 · Hybrid / Chennai

- ▶ Defined technical architecture and solution design for enterprise hybrid mobile solutions using Ionic, Cordova, and Capacitor.
- ▶ Conducted PR reviews, enforced coding standards, and led sprint planning and story estimation in global Agile ceremonies.
- ▶ Performed technical feasibility analysis and gap analysis on client requirements; communicated findings in client-facing discussions.

Consultant – Fintech Mobile Development | Kiya.ai

Sep 2022 – Jun 2024 · Mumbai / Chennai

- ▶ Architected and delivered Svatanttra MFI App — single-codebase web + mobile platform (Angular 14 + Capacitor) for rural micro-loan management.
- ▶ Designed and implemented offline-first SQLite architecture enabling field agents in low-connectivity rural areas to sync on reconnection.
- ▶ Integrated banking-grade REST APIs with secure token-based auth and encrypted data handling; led direct client stakeholder engagement.

Expert Developer – Hybrid Mobile Applications | Birlasoft

Jul 2021 – Sep 2022 · Remote

- ▶ Delivered Cosmo GenZ — official mobile banking app for Cosmos Co-operative Bank (Ionic 5 + Capacitor + Angular 10); live on Play Store & App Store.
- ▶ Implemented biometric login, secure session management, certificate pinning, and encrypted REST API communication with core banking system.

Senior Mobile Application Developer | PayAsia

Jan 2021 – Jul 2021 · Remote

- ▶ Delivered TalentoX NXG — enterprise HRM platform (Ionic 4 + Capacitor + Angular 8) with integrated payment gateway flows.

Technical Team Lead – Mobile Applications | GI Technology

May 2015 – Jan 2021 · Chennai

- ▶ Led 10 engineers (6 in-house + 4 outsourced) to architect and ship 6+ live banking and payment mobile applications.
- ▶ Delivered BHIM KVB UPay (NPCI-compliant UPI), TMB MWallet, TMB MPay, Equitas FASTag, Kotak FASTag Agent — all live on stores.
- ▶ Ensured NPCI security compliance; standardised Scrum, version control, PR reviews, and reporting across teams.
- ▶ Led client-facing technical discussions with KVB, TMB, Equitas, and Kotak backend and compliance teams.
- ▶ Spearheaded hiring drives that doubled team size and product release cadence.

Mobile Application Developer | Nua Trans Media

Jul 2013 – May 2015 · Chennai

- ▶ Built Ionic/Cordova hybrid applications end-to-end including Play Store and App Store submissions.

Software Developer | Leologica Technologies

Dec 2012 – Jul 2013 · Bengaluru

- ▶ Contributed to mobile and web software development projects in an early-career capacity.

PERSONAL AI PROJECTS

MAAIDO — Multi-Agent AI Development Orchestrator | atchayamg.github.io/maaido-website

Flutter · Python FastAPI · PostgreSQL/SQLite · ChromaDB · Docker · GitHub Actions CI

- ▶ Designed and built a human-governed orchestration platform that coordinates four AI coding agents (Claude Code, OpenAI Codex, Google Antigravity, Nous Hermes) to plan, build, review, recover and ship software autonomously.

- ▶ Engineered an autonomous dispatch loop with risk classification, cost-based model routing (economy → premium tiers) and automatic model escalation on failure; critical actions always gated by human approval with an immutable audit trail.
- ▶ Built mission-control UI (Flutter, custom render objects, glassmorphism design system), recovery engine with checkpoints, semantic memory, GitHub-native workflow and a 3D marketing site — 365+ automated tests across app and API.

FutureBytes — AI Automated Newsroom & Content Production Console | Personal Product

Python · OpenAI APIs · ComfyUI · ElevenLabs · Windows console

- ▶ Built an end-to-end automated content production system: research → script → voiceover → AI image/video generation → multi-channel publishing, packaged as a one-click Windows automation console.
- ▶ Production V2 runs on an OpenAI image-generation pipeline with configurable fallbacks, channel management, scheduling, logging and test coverage for unattended daily operation.

ARCHITECTURE & DELIVERY HIGHLIGHTS

BHIM KVB UPay | Karur Vysya Bank

Team Lead · Native Android & iOS · UPI / NPCI · Play Store & App Store

- ▶ Led technical delivery of KVB's NPCI-certified UPI app — API contract alignment, NPCI security audit compliance, and dual-store release.
- ▶ Coordinated native Android & iOS teams, enforced security standards including certificate pinning and server-side payment verification.

Cosmo GenZ | Cosmos Co-operative Bank

Ionic 5 · Capacitor · Angular 10 · Play Store & App Store

- ▶ Full-featured retail mobile banking app — biometric login, secure session management, encrypted REST API integration with core banking system.

Quikzy & Quikzy Flyer | Hyperblitz Technologies

FlutterFlow · Flutter · In Development

- ▶ Architecting two-sided last-mile logistics platform — Quikzy (customer) + Quikzy Flyer (delivery partner) — applying banking-grade API and security patterns.

Svatantra MFI App | Kiya.ai

Angular 14 · Ionic · Capacitor · Single Codebase (Web + Mobile)

- ▶ Unified micro-lending platform with offline-first SQLite architecture — single codebase for web browsers and native iOS/Android simultaneously.

TMB MWallet & TMB MPay | Equitas FASTag | Kotak FASTag Agent | Banking Portfolio

Ionic 1 · Cordova · Play Store

- ▶ Multi-utility wallet, merchant payment acceptance, FASTag ETC, and agent-facing tag management apps — all live across banking domains.

CERTIFICATIONS & TRAINING

Generative AI Bootcamp · Outskill / GrowthSchool · Prompt Engineering · Vibe Coding · AI Workflows · n8n · AI Agents · Visual AI

Gen-AI Engineering Mastermind · Outskill · LLMs · Agentic AI · CrewAI · LangChain · MCPs · Claude Code · Cursor · OpenAI APIs

Generative AI Mastermind · Outskill · Generative AI · AI-Powered Products · No-Code AI · GPT-4 · Claude · Midjourney

Skill India — Generative AI · Skill India / NSDC · Certified Generative AI Practitioner

EDUCATION

B.E. — Electrical & Electronics Engineering · PSNA College of Engineering and Technology · 2006 – 2010
